EVALUATION OF PUBLIC POLICIES

COP28 SIDE EVENT

---

## **Low carbon & climate-resilient health care – global perspectives on solutions & practices**

---

**Tuesday, December 5th 2023**

**13:15-14:45**

Room: SE Room 4 (123 pax)

Co-hosted by University of Heidelberg and Sciences Po

Contact: [charlotte.halpern@sciencespo.fr](mailto:charlotte.halpern@sciencespo.fr)

**Live attendance:**

*The WHO introduced frameworks (e.g., ATACH) for climate-resilient and low-carbon health care. Taking a holistic view, this side event will focus on how different actors in Germany, France, Switzerland, Chad and the Maldives, contribute through research & practices.*

## Speakers

- **Dr Noemi Bender**, Head of Sustainability and Climate Protection, Heidelberg University Hospital
- **Dr Anneliese Depoux**, Director of the Centre Virchow-Villermé, Université Paris Cité and Research affiliate at LIEPP
- **Dr Charlotte Halpern**, Tenured research at Sciences Po, CEE & LIEPP and Director of the Institute for environmental transformations
- **Dr med Alina Herrmann**, Climate Change and Health Researcher, Heidelberg Institute of Global Health
- **Dr Maximilian Jungmann**, Executive Manager, Heidelberg Center for the Environment, CEO, Momentum Novum
- **Dr. med, Dr. P.H. Rainer Sauerborn**, Senior professor of Climate Change and Health, Heidelberg Institute of Global Health (HIGH)
- **Dr Patricia Nayna Schwerdtle**, Senior researcher at the Heidelberg Institute of Global Health (HIGH) and a consultant with the Climate Action Accelerator (CAA)
- **Prof Nicolas Senn**, Head of the Department of Family Medicine, Unisanté, University of Lausanne, President of the Consortium for the ecological transition of the Swiss healthcare System

## Programme

Welcome, Charlotte Halpern and Max Jungmann

- *A global perspective*, Max Jungman, Heidelberg Center for the Environment
- *Building climate change resilience in health care facilities in fragile settings*, Patricia Nayna Schwerdtle, Heidelberg Institute of Global Health (HIGH) and Climate Action Accelerator (CAA)
- *Sustainability and Climate Protection at Heidelberg University Hospital*, Rainer Sauerborn, Heidelberg Institute of Global Health and Noemi Bender, Heidelberg University Hospital
- *Carbon footprinting and emission reduction at German hospitals – challenges and opportunities*, Alina Herrmann and Rainer Sauerborn, Heidelberg Institute of Global Health
- *A road map for conducting the ecological transition of the Swiss healthcare system*, Prof Nicolas Senn, Unisanté, University of Lausanne, Switzerland
- *Decarbonizing the Healthcare System: Key Challenges for Public Policies in France*, Anneliese Depoux, Université Paris Cité, CVV, CPT & LIEPP, and Charlotte Halpern, Sciences Po, CEE & LIEPP

General discussion

Conclusive remarks and end of session
