Who are we?

The **Climate Action Accelerator** is a non-profit initiative based in Geneva that aims to mobilise a critical mass of community-based organisations around the world to scale up implementation of climate solutions, keep global warming well below 2°C and avoid the risk of dangerous drift.

The goal is to help move the aid, health and higher education sectors towards a radical transformation of their practices, pursuing emission reduction targets (-50% by 2030) and a 'net zero' trajectory, in line with the Paris Agreement.

Our objectives

EMPOWER

Empower organizations to at least halve their emissions by 2030 through a hub of expertise and resources.

CHAMPION

Transform them into ambassadors of change within their networks, capable of influencing their peers.

COMMUNITY

Build a global community of action, sharing climate solutions as a universal common good, to scale up their deployment.
