

## ACCELERATE SUSTAINABLE MOBILITY WITHIN YOUR ORGANISATION

DOWNLOAD THE PROPOSAL-  
READY RIDE AND VEHICLE  
SHARING PACKAGE

Fleet Forum is committed to advancing sustainable reform in the humanitarian sector by mainstreaming ride-sharing and vehicle-sharing across organisations. Because these practices rely on strong collaboration, they hold significant potential to reshape how mobility is planned and managed.

Driven by the belief that change requires action, we offer a ready-to-use proposal package for organisations that want to take concrete steps toward sustainable mobility.

### BY INTEGRATING RIDE- AND/OR VEHICLE-SHARING INTO YOUR PROPOSALS, YOU WILL:

- Position your organisation to achieve financial savings in the coming year
- Secure the resources needed to launch and implement the project
- Enable internal shifts toward more sustainable mobility practices
- Contribute to the wider humanitarian transformation and sector reset
- Meet growing donor expectations for cost efficiency and environmental performance

### THE PROPOSAL PACKAGE INCLUDES:

- An indicative narrative and budget for organisations planning to self-implement
- Supporting documents and tools to define ambition and guide decision-making
- A narrative and budget for organisations seeking Fleet Forum technical assistance
- Available in English, French and Spanish
