

Community Package

The Climate Action Accelerator's

Community of Practice and Action

Our Community of Practice and Action supports organisations in implementing **concrete climate action** within their structures, and develops a shared, openly accessible common platform of **sustainable solutions and approaches** to address the climate crisis.

By joining, you become part of a group of **inspiring and committed organisations working together to accelerate climate action.**

Community **benefits**

- A **network** mobilised to support concrete climate action.
- A **space for collaboration**, experience-sharing and learning around climate and environmental solutions.
- **Individual mentoring** with direct access to the Accelerator's experts.
- Regular **events** to showcase your work and facilitate peer learning.
- **Practical guidance and materials** developed by the Accelerator with its partners and external experts.

Your **commitments**

- Adoption of a **science-based decarbonisation pathway**, in line with the Paris Agreement (reaching net zero by 2050, implying 60% emissions reduction by 2035).
- **Transparency** while sharing results and progress.
- Participation in **knowledge-sharing** in an open-source community.
- **Collective influence** through the promotion of the initiative within the organisation's network.

Principles

- Adoption of a science-based decarbonisation pathway
- Transparency on results and progress
- Participation in an open-source community
- Promotion of the initiative within network

Collaboration space

- Events and networking through community sharing sessions and Partners' Day
- Ad hoc peer events to create sector synergies, launch joint projects, promote environmental responsibility and advocacy

Individual Mentoring by Accelerator experts

- Implementation support & guidance
- Quality review and sparring
- Progress reviews, including annual review based on high-level indicators
- Direct access to Accelerator experts

Access & contribution to Accelerator resources

- Toolkits, roadmaps, playbooks, solutions and documented technical case studies

Knowledge Base and success stories

- Access to the full range of outcomes co-developed by the Accelerator and its partners, including policies, checklists, tools, tutorials, LCAs, and case studies illustrating implementation approaches and lessons learned

Webinars and conferences

- Promotion of knowledge sharing and support for concrete environmental and climate action
- Opportunity to showcase members' work

Join our **community**
