The Humanitarian Carbon Calculator (HCC) Product Roadmap 2022–2027

Climate Action **Accelerator**

2022	HCC v1	**Initial version**
2024	HCC v2	**Data input** enhancements: remove limitation of only 30 entities, alternative data entry method for several entities + lightly updated emission factor database
2026	HCC v2.1	Lightly updated emission factor database (10+ relief items LCAs)
2026	HCC v3	**Data output** enhancements: ranking of top emission categories, integration with generic decarbonisation solutions + **emission factor database update**
2027	HCC v3.1	Lightly updated emission factor database, light usability enhancements based on feedback from user community

Key numbers

- **900+** emission factors
- **80+** members of the HCC user support community
- **8** online sessions in 2026 with HCC user support community
- **400+** HCC downloads from 200+ organisations between April 2025 and October 2026
